ductqxfx21277@funix.edu.vn

2, Tan Thang Hamlet, Eana Commune, Krong Ana District, DakLak Province

CAREER OBJECTIVE

I plan to make an effort to study and enhance my skills and knowledge in the short term, within 1-2 years. I will focus on mastering manual testing skills and expanding my skills in automated testing. In 5 years, I aim to reach the level of senior testing and become proficient in both manual and automated testing

EXPERIENCE

Lihanet Limited Liability Company - Software Development and Implementation Quy Nhon-Binh Dinh 2022 - 2023

I've joined the 'Document and Certificate Management Software'. My tasks are:

- Analyze and design the database for the document and certificate management software.
- Develop a module for managing recipient information that allows data input and editing through Excel files.
- Create a module for generating certificate templates and distributing them from higher-level authorities to lower levels.

Lihanet Limited Liability Company - Software Development and Implementation Quy Nhon-Binh Dinh 2020-2021

I've joined the 'Library Management Software'. My tasks are:
